NARRATIVE

On 08/29/2015 at about 1848 hours (all times approximate) I was dispatched by police radio to a non-blocking/non-injury collision at the intersection of SR 204 and Market Place/Lundeen Parkway in the city of Lake Stevens.

Arriving on scene I contacted both drivers and a male passenger. Both vehicles had been moved from the collision location to the southbound shoulder of Market Place; just south of SR 204.

It should be noted at the time of this collision the power was out in the area and the traffic lights at the intersection of SR 204 and Market Place/Lundeen Parkway were not illuminated or working and were not flashing red. The traffic lights also do not have a reflective coating around the edges of the light housings. The time of day was daylight with medium to heavy traffic and raining with wet roadways.

Driver Morgan stated she had been traveling eastbound on SR 204 and entered the intersection, not stopping believing she thought she had the right of way in the intersection. Morgan stated the other vehicle that had struck her had been traveling westbound on SR 204 and made a left turn towards southbound Market Place hitting her vehicle by the front driver's tire and door.

Driver Oberg stated he had been traveling southbound on Lundeen Parkway, stopped at the intersection of SR 204 due to the traffic lights being out and then proceeded into the intersection intending to continue southbound through the intersection to Market Place. Oberg stated Morgan failed to stop before entering the intersection and he was unable to stop before the front of his vehicle (license plate and frame) struck Morgan's vehicle.

Oberg's passenger (brother) also stated they had been traveling southbound through the intersection as his brother (the driver) had told the police.

Morgan stated Oberg was lying about the direction he had been traveling in the intersection. Morgan stated she wanted to leave her vehicle in the middle of the intersection to show police what had happened but Oberg had moved his vehicle out of the intersection so she also moved her vehicle.

I checked the damage to both vehicles and concluded that Morgan's vehicle (U1) had been traveling eastbound on SR 204 and entered the intersection without stopping where the traffic lights had no power. Oberg's vehicle (U2) had been traveling southbound through the intersection, after having stopped, and collided with U1 in the intersection. The front license plate of U2 was folded from right to left (the direction U1 had been traveling) with no corner damage observed to U2 (which would be present if U2 had been making a left turn as claimed by Morgan).

All parties completed written statements, I took digital images of the vehicles and intersection and provided both drivers with my business card and the exchange of information. Both vehicles were driven from the scene and no injuries were reported at the time of the collision.
